A POLICEMAN WOUNDED

By a Tough Customer Whom

A SENSATIONAL SHOOTING

At a quarter past eleven o'clock yes terday forenoon a very sensational shooting affair occurred in the Eighth ward, which resulted in the wounding of policeman and another man, a stranger The wildest rumors at once sprang into circulation, and went far and wide in an incredibly short space of time and in wildly varying forms. One story was that an officer had been killed; another that the officer's assailant was killed, and one form of the story was that both men had been fatally injured.

fortunately nobody was dangerously hurt.

About the hour named Officer Henry Frohme, of the Eighth ward day force, was informed that a tramp was insulting and frightening women down on the river bank, about Forty-fifth street. The officer went down, and found the man tying on the ground among a clump of bushes. He stooped over him and placed his hands on him. The officer had been warned that the man was armed with a revolver, and he quickly found that this was true, for as Frohme caught him, he drew a large revolver, and without attempting to rise, pointed it at Frohme's head and fired. Henry turned his head, and the ball, a forty-four-callibre, struck him on the left side of the scalp near the base of the cranium. It ranged over the skull and came out at the other side about opposite where it entered. The ball was flattened to a thin wafer by its contact with the skull.

The shot staggered Frohme, and he

to a thin water by its congect with the skull.

The shot staggered Frohme, and he recled probably eight feet before he fell. Charles Landkrohn, a well-known stonemason of the Eighth ward, had accompanied the policeman, and as the stranger arose after shooting the officer, Landkrohn grappled with him. When the officer recovered his feet the stranger was apparently getting the best of Landkrohn, and Frohme drew his revolver and pointed it at the man, but when he pulled the trigger the pistol would not shoot. Landkrohn managed to disengage himself from the fellow, and drawing his revolver, shot him. The ball apparently entered just below the left eye not far from the nose. The wound did not disable him, but he placed his hands over his face and said—

"For God's sake, don't shoot any more!"

He was arrested, and after being Postmaster Cowden will spend the day skull. The to-day in Pittsburgh.

He was arrested, and after being searched, was arraigned before Squire W. H. Davis, who committed him to jail in default of \$5,000 for a preliminary hearing June 20 at 2 p. m., on a charge of shooting with intent to kill.

When searched, the revolver with which he shot Frohme, a huge and wicked looking knife, with a blade fourteen inches long, nickle-plated, and the hone handle seemingly covered with dry blood, and two smaller but dangerous looking dirks were found concepted on him. The larger knife was in a scabbard inside his pantaloons, extending down from the right hip. He also had a portnauteau full of articles which were not examined, and last night the police learned that he had at a boarding bouse manteau full of articles which were not examined, and last night the police learned that he had at a boarding house at Benwood, where he was staying, a valise full of suspicious articles. The valise was brought up from Benwood last night. It contained little besides tools used by a glass mould maker. In it was a paper, written in German, which seemed to be the man's own statement of a shooting affair in which
